

Opportunity at Games2Win for Technical Manager !

About Us:

Games2win (G2W) is one of the fastest growing online gaming companies in the world and features in the top 50 online gaming destinations in the world as per the latest comScore reports. G2W is funded by leading top tier investors such as Clearstone Venture Partners, Silicon Valley Bank and Nexus India Capital. G2W owns and operates www.games2win.com –a massively popular flash gaming website with over 5 million unique visitors a month, Inviziads (www.inviziads.com) - a unique in-game advertising network and www.gamecurry.com - the world's first flash games search portal.

The founders of G2W Inc are Alok Kejriwal - serial entrepreneur See - ([google link](#));([linkedin link](#)), and Mahesh Khambadkone -an online gaming specialist See - [linkedin link](#)

What's the opportunity?

Position: Technical Manager – Games2win

Reporting into : The CTO of the company who is Mahesh Khambadkone and dotted line reporting into Alok Kejriwal – CEO

Based in – Mumbai

Age & Experience - A 7-10 year work experience minimum. Around 30 years of age.

Background – Candidate would lead the engineering team of the Games2win company. Games2win operates multiple online businesses in the gaming space, including www.games2win.com (casual games portal), www.inviziads.com (in-game ad network) and www.gamecurry.com (world's first Flash games search engine). This position is primarily for engineering requirements of www.games2win.com and www.invizads.com , but the candidate will have the opportunity to work on any of the other portals.

www.games2win.com is a heavily trafficked site, reaching about 6 million consumers a month, and growing. Behind the scenes of all the games that are

found on the site, there are a lot of back-end applications that exist and need management. These include solutions for content management, localization, usage statistics, player reporting, secure scoring systems, loyalty points management, social graphs, branded solutions, customized ad-serving, site performance management, SEO optimization and more. Technologies used include Flash, JSP, PHP, mssql and mysql.

www.inviziads.com is in-game ad network that delivers about 5 million ad impressions per day across a growing list of 150+ games, owned by Games2win.com and others. There are multiple components involved in this business, including look-up servers, ad-servers, 3rd party ad-networks, latency issues to be managed, and client-side wrappers that are consistently upgraded with each ad serving innovation the product team comes up with. Technologies used include Flash, Perl, XML and postgres.

We require a strong Technical Manager to lead (and build where necessary) the team of programmers, front-end developers, system managers and graphic designers, to help build a world leading casual games business.

What the job is all about - Role & Responsibility:

The person will play a hands-on ownership role of overseeing engineering on all properties of games2win, such as games2win.com, inviziads.com, gamecurry.com and ctracer.in. The key roles will be:

- Plan and manage all development activities of our online properties, and components thereof.
- Work with the Product Team to clearly define requirements, architect solutions, and oversee the engineering of the same by internal teams and external partners
- Engage with appropriate Quality Control to ensure we release tried and tested solutions and follow best practices
- Ensure 100% uptime and adherence to best practices for all products launched at Games2win.

Desired Profile

- Should have had experience managing multiple concurrent projects.
- Breadth in technical know-how, from databases, application servers, front-end tools and scripting languages. Preference will be given to those with past experience working in integration projects with Flash, and to those with know-how of mysql / postgres, and AJAX.
- Strong with common-sense and an ability to solve problems
- Past experience running large scale web applications ; candidates with consumer product experience and ad serving backgrounds would be preferred.

- An ability to lead by demonstration then management, which involves getting into coding.

Desired Soft skills: Teamplayer, good leader, problem solver, ability to motivate teams.

Qualifications: B.E./ B.Tech or Science graduate. Certifications preferred.

Remuneration - As a practice, we have typically matched candidates existing packages + ADDED on lucrative performance incentives and of course ESOP's.*

The idea is to make the candidate actually take ownership role and then provide additional compensation on performance.

* in the exit of mobile2win China to Disney – the c2w group now has a proven track record of demonstrating how valuable its' company esops can be.

Growth and prospects - This is a huge opportunity for someone who wants to associate with GAMING as an industry and scale up a start up to a large business. The scope to experiment, innovate and pioneer ideas and concepts will be enormous. Building a large consumer entertainment destination with world-wide acclaim is our goal, and brings considerable technical challenges and opportunities not faced in other domains. The candidate can vertically grow into a VP-Engineering /Key management position as he/she scales up.
