What's the opportunity?

Position: Senior Game Producer – Games2win

Reporting into : The Product Head of the company who is Mihir Shah.

Based in – Mumbai

Job Descriptor:

We are seeking someone with a creative streak, who understands Flash casual games and can conjure up fun and engaging games for the international audience of our portal, www.games2win.com.

The candidate would be capable of :

- Producing games from concept till launch: this includes writing game design documents, cooperating with art teams, defining game-play mechanics, overseeing product execution, and coming up with ideas on promoting the games.

- Defining detailed game design documents so that studios and production staff can get to work on and create the game.
- Understand the audience at Games2win, the genres that work (and could work), and defining a pipeline of games that can populate the portal. Know-how on measuring game performance is important.
- Ability to design single-player and multi-player games. Experience building SNS games will be preferred.
- Ability to identify good games that will work on our portal, negotiate contracts, and license content when required.

Age & Experience - A 5 years work experience as Game Designer, with proven experience in building successful games. Around 25-28 years of age.

Working in line with: Game Developers including handling of external vendors and in-house teams. Game Production – who will co-ordinate efforts between Product Head and Game development teams
