

Opportunity At Games2win for UI/Web Developer

About Us:

Games2win (G2W) is one of the fastest growing online gaming companies in the world and features in the top 50 online gaming destinations in the world as per the latest comScore reports. G2W is funded by leading top tier investors such as Clearstone Venture Partners, Silicon Valley Bank and Nexus India Capital. G2W owns and operates www.games2win.com –a massively popular flash gaming website with over 5 million unique visitors a month, Inviziads (www.inviziads.com) - a unique in-game advertising network and www.gamecurry.com - the world's first flash games search portal.

The founders of G2W Inc are Alok Kejriwal - serial entrepreneur See - ([google link](#));([linkedin link](#)), and Mahesh Khambadkone -an online gaming specialist See - [linkedin link](#)

What's the opportunity?

Position: UI / Web Developer

Based in: Mumbai

Reporting to: Product lead, with dotted line reporting to the VP Engineering.

Age & Experience: Above 24 and at least 2 years experience as a web developer developing consumer-facing portals using CSS / AJAX extensively.

Background – Candidate would be part of the core development team of the Games2win company. Games2win operates multiple online businesses in the gaming space, including www.games2win.com (casual games portal), www.inviziads.com (in-game ad network) and www.gamecurry.com (world's first Flash games search engine).

We require a strong front-end web developer to join the team of developers, website designers, graphic artists and portal managers, to help build a world leading games discovery service.

What the job is all about - Role & Responsibility:

Responsible for implementing all the front-end requirements of our portals.
This will involve :

- understanding the business functionality to be achieved and translating this into specific pages / UI elements that are implemented on the site
- having a very strong understanding front-end development paradigms such as sessions, cookies, POST/ GET requests, error codes, style sheets and Javascript.
- Ability to adapt to multiple programming environments (e.g. PHP / ASP / JSP / Python code), with know-how of how to set-up local test environments
- ability to document relevantly and accurately

Desired Profile: Proficiency in PHP / Python templates / JSP is a must, and not afraid to move between these front-end scripting languages. Good Knowledge of HTML, AJAX, CSS, SQL and JavaScript. Ability to understand existing systems, and propose solutions that work and scale well, is a must. Prior experience working on online portals is a must. Any knowledge of Flash would be highly beneficial.

Desired Soft skills: Team player, good learner, problem solver, good communication skills.

Qualifications: B.E. / B.Tech or Science graduate. Certifications preferred, although not necessary. Candidates with artistic backgrounds, able to meet above requirements, would be considered.

Remuneration - As a practice, we have typically matched candidates existing packages + ADDED on lucrative performance incentives and of course ESOP's.*

* in the exit of mobile2win China to Disney – the group has now a proven track record of demonstrating how valuable its company esops can be.

The idea is to make the candidate actually take an ownership role and then provide additional compensation on performance.

Growth and prospects - This is a huge opportunity for someone who wants to be associated with ONLINE GAMING as an industry and be responsible for scaling up a start up venture to a large business. The scope to experiment, innovate and pioneer search and discovery ideas and concepts will be

enormous. The success in popularizing a start up website through innovative features, user friendliness and speed will be a very impressive credential to have. The gaming market is poised for immense growth and the candidate can look forward to a very long term vertical growth curve in this industry.

The candidate can vertically grow into a Lead Development / Management position as he/she scales up.
